### Alleged Robbers Arrested in Paris

A message was received in this city Wednesday afternoon telling of the robbery of the paymaster of the Patterson-Griffith Construction Company Tuesday night at Butler, a few miles north of Falmouth. The paymaster was relieved of \$955 by a gang of five negroes, three of which were employed by the construction company.

The message came to the local police, who were asked to be on the lookout for the men, who were believed to have proceeded in the direction of Paris after the robbery had been perpetrated. The money taken from the paymaster was not the property of the company, but represented his savings for the past six years.

Upon receipt of the telephone message the local police kept a sharp lookout for the men, of whom they had a very accurate description and Wednesday night about 12 o'clock Patrolman Fred Link took into custody Will Deans and Will Overtree, two negroes suspected of being implicated in the robbery, a short time after they alighted from the fast passenger train from Cincinnati.

Both men were well dressed and carried suit cases. Upon being searched a 45-caliber Colt's revolver was found on Deans, while Overtree carried a 38 Smith & Wesson special. The sum of \$40 in bills was found on Deans and Overtree had about \$70. The men were locked up and yesterday morning Patrolman Link communicated with the superintendent of the construction camp, giving a description of the men and he was instructed to take them to Falmouth, where warrants had been issued for their arrest.

Deans denied any connection with the crime whatever. He said he left Winchester last week in company with Overtree and that Monday the latter left him saying he was going to the construction camp of Caldwell. The next night he said he returned in company with three other negroes whose names were given to the police here together with their description and location in Cincinnati.

He said that the members of the crowd seemed well supplied with money, but they would not tell where they secured it. Deans is from Rocky Mountain, N. C., while Overtree says he came here about a year ago from Atlanta, Ga. The supposition is that the negroes after committing the robbery went to Cincinnati where they purchased the revolvers and the supply of clothing.

Patrolman Link left yesterday afternoon on the 3:30 L. & N. train with the prisoners in charge after communicating with the Pendleton officials and went to Cincinnati last night with the hope of rounding up the other members of the gang who participated in the robbery.

### Real Estate Transfers.

The following real estate transfers have been recorded in the office of County Clerk Pearce Paton, in the past few days.

Ballard Peterson, to J. D. Bradley, in Millersburg, \$55.00.

J. D. Bradley to Richard Bishop, lot in Millersburg, \$95.00.

J. D. Bradley to Mrs. Hattie Snapp, lot in Millersburg, \$575.00.

Richard Bishop to Martha Case, lot in Millersburg, \$100.

A. H. Robinson to Allie Thornton, lot in Paris, \$150.00.

Jennie F. Barnes to Thomas Marvin Ratiiff, lot in Paris, \$10.00, and other considerations.

### Sunday School Convention a Grand Success.

The annual convention of the Bourbon County Bible School Association of the Christian Church, held at Clintonville yesterday was the most successful in the history of the organization. The local attendance was exceptionally large, only two of the districts of the county being without a representative, Riddle Mills and Jackstown, and the report from these showed the inconvenient means of reaching the place of holding the convention rendered it impossible.

The Christian Church at Clintonville, in which the exercises were held, was decorated for the occasion with a profusion of cut flowers and growing plants. Mr. L. A. Soper, president of the Association, presided over the exercises, and the excellent program was carried out in every particular.

Many of those who attended went on the train and were met in automobiles and other conveyances which were in charge of Mr. Newton Shropshire.

The program opened with devotional exercises and Misses Kathleen and Dolly Smith and Edith and Elizabeth Weathers welcomed the visitors which was followed by the address of the President, Mr. W. J. Smith and Elder J. W. Ligon, of North Middletown, made two excellent addresses during the morning session.

At noon a delightful luncheon was served and heartily enjoyed by the large number present. The afternoon session was partly devoted to the business of the association. Following the report of the secretaries the nominating committee reported the selection of Mr. N. F. Shropshire as president of the association for the ensuing year. W. O. Hinton, vice president, J. B. Cray, secretary, and J. W. Ligon, superintendent of the Adult Bible Class, North Middletown was selected as the place for holding the convention in 1913.

The Model Worker's Conference, which was led by Mr. Smith was participated in by Miss Anna May, of Mt. Carmel, and Dr. Clay Burroughs, of Millersburg. Rev. E. W. Ellis, and W. O. Hinton delivered addresses during the afternoon session. The meeting closed with the Herbert Memorial Service, which was led by Mr. Smith.

## The Three Emblems.

The elephant is an imposing looking beast, but it never did inhabit many countries and its species is dying out. It was an object of fear in the jungles and is still a curiosity at the circus, but it retreats before civilization. The Bull Moose is even less desirable as a party emblem. It is a show creature—quite striking in appearance, but is only suited to the higher altitudes—its presence chills you.

Neither the elephant nor the bull moose makes a good party emblem. Give us the donkey—the patient, hard-working donkey. He is everywhere, and always toiling for the common people. He lifts up his voice occasionally in hopeful supplication for a better day and he kicks sometimes when he is mistreated, but what animal could better symbolize utility and universality? His life is a life of service and he is omnipresent. The Democratic party is to be congratulated on having escaped the elephant and the bull moose—hail to the Democratic Donkey!

## Stray Dogs in London.

About three thousand stray dogs are gathered up each month by the London police.

## Tobacco Man Accused of Arson.

Bolin Wright, of Mayfield, a prominent tobacco dealer, was arrested Monday afternoon on a warrant charging him with arson. A pond of \$2,000 was given. His arrest followed that of Lee Perkins, and was the aftermath of the fires three weeks ago when four tobacco barns were burned, and property to the value of \$50,000 was destroyed.

## Shocking Sounds

in the earth are sometimes heard before a terrible earthquake, that warn of the coming peril. Nature's warnings are kind. That dull pain or ache in the back warns you the kidneys need attention. If you could escape those dangerous maladies, Bronchitis, Diabetes or Bright's disease take Electric Bitters at once and see backache fly and all your best feelings return. "My son received great benefit from their use for kidney and bladder trouble," writes Peter Bondy, South Rockwood, Mich. "It is certainly a great kidney medicine." Try it. '50 cents at Oberdorfer's.

## Forestry Board to Meet.

Gov. McCreary has called a meeting of the State Board of Forestry for Frankfort next Monday. The board will consider the appointment of a State forester. Several applications have been presented, with recommendations from the Government Bureau of Forestry. Gov. McCreary prefers appointing a Kentuckian if one can be found who meets the requirements of the law creating the office. The job must be a graduate of a school of forestry. The board is composed of G. V. McCreary, Commissioner of Agriculture; Newman, and Prof. M. A. Scovell, director of the Experiment Station, ex-officio, and Mrs. Mason Maury, of Louisville; W. H. Mackey, of Covington; and J. N. Camden.

## Plan to Organize Trotting Circuit

A movement is on foot to organize a trotting circuit for next year, which will give six to eight week's racing.

The towns proposed are Richmond, Winchester, Mt. Sterling, Maysville, Versailles, Lexington, Cynthiana and Danville. The method will be to hold a meeting in a short time and see if the organization cannot be put on foot and hold the race meetings in conjunction with fairs during the summer, and then follow them up with trotting meetings in the fall. The plan being put on foot will begin the fairs about July 20 to 25, and the trotting meetings the latter part of August. This plan has been worked successfully in other States and, if put on in Kentucky, will revive the racing and make the trotting industry become what it used to be.

## KEEP THE KIDNEYS WELL

Health is Worth Saving, and Some Paris People Know How to Save It.

Many Paris people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer or to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no ground for doubt.

John W. Myers, blacksmith, East Main St. Carlisle, Ky., says "We are hardly ever without Doan's Kidney Pills in the family, as they are a fine kidney medicine. My kidneys were weak and acted irregularly. The kidney secretions also contained a sediment, and my back ached. When I heard about Doan's Kidney Pills, I used them and since then, I have had no further trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Cherry-Blossom Land.  
If any one seeks the heart of Japan, he will find it in the blossom of the mountain cherry exhaling its fragrance in the morning sun.

## STOCK, CROP AND FARM NOTES.

John McConnell sold his farm of 345 acres in Boyle county, situated on the Lebanon road, to Dr. Eads, for \$140 per acre. The farm is known as the old Sam Moore place and is one of the best in the county.

The International Harvester Company Monday filed its answer to the Government's dissolution suit, and made strong denial of all charges preferred, saying to the contrary, that the company has proved a benefit to the public and to employees.

Efforts are being made in Mt. Sterling to organize a company and put on a three-days' trotting meeting at the fair grounds in that city the week preceding the Lexington trot. Should the meeting be held, at least \$4,000 will be given away in purses.

Commissioner of Agriculture J. W. Newman has been selected to take charge of the fund in Kentucky for the proposed memorial to the late S. A. Knapp, of the Federal Department of Agriculture, of whom it is said, he did more for agriculture in the South than any other man. An agricultural school, to be known as the Knapp School of Country Life, is to be established in connection with the Peabody Institute at Nashville, and this memorial fund is for the purpose of erecting a statue to him on the campus. Prof. Knapp's son, Bradford Knapp, will be sent by the Department of Agriculture to assist in fair demonstrating in Kentucky.

## He Won't Limp Now.

No more limping for Tom Moore, of Cochran, Ga., "I had a bad sore on my instep that nothing seemed to help till I used Bucklin's Arnica Salve," he writes, "but this wonderful healer soon cured me." Heals old running sores, ulcers, boils, burns, cuts, bruises, eczema or piles. Try it. Only 25¢ at Oberdorfer's.

## Natural Thought.

Eve—if I were to die would you marry again? Adam—How many ribs do you suppose fellow can lose without coming to pieces?

Mr. W. G. Gansalus, farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fifteen years and that he has found it to be an excellent remedy and takes pleasure in recommending it. For sale by all dealers.

## Whence the Term "Gazette."

The name "gazette" as applied to a newspaper is derived from a small Venetian coin, the price of the first news sheet published there.

## C. J. McLEAR SUCCUMBS TO ILLNESS.

After months of patient suffering, Mr. Clifton Jefferson McLean passed away at his apartments in the Robneel Building, Wednesday evening at 7 o'clock. Mr. McLean was a victim of uremic poisoning which was brought on by Bright's disease and he has been a great sufferer from a disease of the heart.

Since last February he has been confined to his room almost constantly with the exception of a short period in which he sought the curative powers of several watering places in Kentucky, but without any benefit to the dread disease which was the direct cause of his death.

During his illness he has had every attention within the power of medical skill and his devoted wife has been constantly at his bedside administering to his every desire. All efforts to relieve his suffering was without result and for the past two or three weeks his demise has been momentarily expected.

Mr. McLean, who was aged sixty years, was a native of Virginia, being born in Fuzanna county, Virginia. He came to Kentucky twenty-two years ago and since his residence in this State has been constantly engaged in the hotel business and was probably one of the best-known and most popular hotel proprietors in Kentucky, Tennessee and Virginia.

When he located in this State he opened and conducted a hotel at Owenton, which he managed for a short time and moved to London, Ky., where he engaged in the same business for ten years before he came to Paris and assumed charge of the Windsor Hotel, the management of which he conducted with marked success for about nine years before he retired from the business on account of failing health. At the time of his death he was the owner of a hotel in Bristol, Tenn., but which was leased and conducted by other parties.

Mr. McLean was united in marriage in 1877 to Miss Anna Slocum, daughter of Dr. I. D. and Mary Slocum. Two daughters were born to this union, one dying in infancy and the second passed away at the age of five years, and before they located in this State. He was a devoted member of the Baptist church and so long as his health permitted was a regular attendant upon all of the services, and with his devoted wife, was actively engaged in church work.

During his illness Mrs. McLean has been constantly attending and giving him every care and attention. While realizing the end was not far distant she withstood wonderfully the strain of constant watching to the last moment. She has the sympathy of a large circle of friends in her sad bereavement.

Besides his wife, Mr. McLean is survived by two brothers, Messrs. James and Ebenezer McLean, of Virginia, the latter being at the bedside when the end came.

The funeral will be held at the Baptist Church by Rev. E. M. Lightfoot and Rev. G. W. Clark, Friday afternoon at 3:30 o'clock. Burial in Paris cemetery.

Active Pall bearers: Dr. D. S. Henry, S. E. Bedford, J. B. Burnett, Charlton Alexander, James McClure, Denis Dundon.

Honorary Pall-bearers: Chas. Stephens, Wm. H. Clark, John Larue, Douglas Thomas, J. T. Martin, J. H. Brent, Swift Champ, J. Smith Clark, Nathan Bayless, Sr., Dr. C. J. Clarke, A. J. Winters.

Why Take Treatment That Is Doing You No Good, When a Few Days Under the care of Dr. Dolle Will Show You How Easy It Is to Cure These Diseases When the Proper Treatment Is Given.

Have you treated for months and years, and been disappointed and you think that you cannot be cured? You, no doubt, all this time have been treated by inexperienced doctors who had neither sufficient knowledge nor experience to know what to do.

These are the reasons of which I have cured so many, justly giving me the reputation for one of which I am so proud.

Blood Diseases, Skin Diseases  
I will give you treatment that in a few days cure rash, spots and every sign and symptom. My treatment gets the poison out of the system instead of driving it in like ordinary treatments. Only one visit is required. I do no cutting and you enter no pain nor trouble. All the diseases in a few days.

Nervous Troubles, Lost Vitality  
My combined treatment for these troubles so common among those who have become weak and worn out, who have caused it by idly, dissipation and overeating, is the best and easiest way to get rid of it. It cures it quickly.

It overcomes weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such diseases.

Kidney and Bladder Troubles  
My method is scientifically cured by me. My method immediately benefits you, and the majority of cases are come from physicians and specialists who failed.

Piles, Fistulae—  
I can cure you so quickly and easily that you will be surprised. I will give you just the result and cure you are looking for without a surgical operation.

Acute Diseases—  
I include, Paroxysmal, strong drug store remedies seldom cure. My treatment stops every symptom and cures in a few days. It is scientific—that's the only sure way to be cured so it will not fail.

You can take my Treatment without a cent and pay me after I cure you. I know that I can give you new life, new hope, and can restore you back to health and happiness. I know every man will pay after I have eliminated every symptom of disease from his body. Microscopic and analytical urinalysis FREE. I have written a book that ought to be in the hands of every suffering man in this country. I will send you a copy, free, if you will write me at once and tell me which you desire treatment. Hours, 9 to 4; Saturday to 6; evenings, 7 to 8 on Monday, Wednesday and Saturday nights.

## FREE SHOWS WILL BE OF HIGH CLASS

Enormous Expenditures for Attractions At Kentucky State Fair September 9 to 14

## THE FAMOUS LIBERATI BAND

Will Be Star Offering in This Line—Amusements Provided for Both Day and Night—Autos Will Loop the Loop in MidAir.

Two things that are essential to the success of an educational and amusement institution, according to J. W. Newman, Commissioner of Agriculture, and James L. Dent, Secretary of the Kentucky State Fair, are inducements to draw exhibitors and attractions to the public. With this idea in view, the officials have set out to make it profitable to both exhibitors and patrons, and to that end nothing has been left undone that might add to the drawing features both from the standpoint of exhibitors and also from the public generally. Rich prizes have been named by the management to insure the greatest display of exhibits ever seen in any section of the south or west, more than \$30,000 to be distributed to the successful exhibitors in the various departments.

As an evidence of their faith in the people of Kentucky to patronize an institution such as the State Fair has become, Commissioner Newman and Secretary Dent have gone to great expense in securing the greatest line of amusements ever provided for the people of Kentucky or the South. Liberati and his famous band, one of the greatest musical organizations in the country, composed of forty-two musicians and six soloists, has been secured at a big expense, and the music-loving public who attend the fair this year will have no complaint to register on this score. This noted organization will be heard in concert each afternoon and night in the big pavilion. For those of the visitors who would rather patronize the racing feature of the fair than the horse show, the management has secured another noted musical organization in the famous Day and Scally band, of Louisville, which will furnish the music at the race track on the grounds each afternoon during the week.

For the free attractions for each afternoon and evening the management has provided some of the most sensational acts ever presented to the public. Who in this section of the country has ever witnessed automobiles passing through the air at a height of sixty-five feet? For the first time in the South or Middle West, and one of the few times in this country, such an exhibition will be witnessed at the State Fair this year when every afternoon at 2 o'clock and each night at 8:30 o'clock two 1,200-pound machines will loop the loop from a tower at a height of sixty-five feet. This is regarded as the most sensational act ever contrived by the human mind, and just as often as it is attempted, just that often the exhibitors daily with death in mid-air.

At no time during the entire day will there be a dull minute for visitors, it being the aim of the management to provide such a line of attractions in addition to the regular line of exhibits that visitors for one day only can leave for their homes the same night, expressing the belief that they have been well repaid for the time and money spent in coming to Louisville for the one day. In order to please the one-day visitor the management has looked well to the daylight attractions, and the big \$100,000 livestock pavilion will be the scene of much activity from early morning until late in the afternoon. Among the exhibits to be seen in the pavilion will be the horse show, which will be given from 10 o'clock each morning until 4 o'clock each afternoon, permitting visitors to see the last ring of the day and get to the depots in time to catch their trains for home, none of which leave the city earlier than 4:30 o'clock.

This great exhibition of livestock in the pavilion, coupled with the races and open-air attractions in front of the grand stand each afternoon, makes the free attractions the biggest and best ever presented to the people in this section of the country.

## MODEL SILO AT STATE FAIR

A model concrete silo has been constructed at the State Fair and will be in readiness by the time the great event opens in September. It is proposed to have it filled with corn, ensilage, sorghum and other green feeds, thus affording students of agriculture, farmers, stockmen and all others interested an opportunity of seeing in operation one of the greatest feeding and saving and nourishing-preserving devices ever used on the farm. It is a beauty in construction, and is in keeping with the dignity and rich appearance of all the permanent buildings on the grounds.

## HOW TO MOVE LARGE TREES

Process Now Made Possible Through Contrivance Attached to Ordinary Wagon.

The moving of large trees is now made possible through a single contrivance which may be attached to the running gear of an ordinary wagon. The tree can be raised to any desired angle and retained there, by means of the endless chains on the cog-wheels

Moving Large Trees.

In the upper part of the frame-work and their connections with the block and tackle below. The old-fashioned guy ropes, usually fastened to the head of the tree, are discarded, as they have frequently proved to be injurious by disconnecting or loosening the roots from the ball of earth.

In order to get the wagon directly over the ball of the tree, and also over the hole where the tree is to be replanted, the rear axle of the wagon is removed, and the back of the truss or elevated framework upon which the wagon together at any width required. To prevent damage to grass areas, wide tires are used. In the illustration, 14-inch tires were used on the rear wheels.

## CULTIVATION OF PEACH TREE

Thorough Culture Kills Weeds and Forms Mulch Conserving Much of the Soil Moisture.

It is very essential to take the very best possible care of the young trees. They should be kept thrifty and healthy, and all the necessary care given them to conserve the moisture and plant food in the soil.

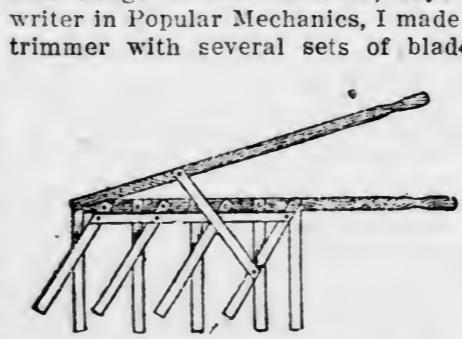

Early in the spring, as soon as the soil will permit, it should be stirred six to eight inches deep; thus if the trees have been planted as deeply as they should, plowing this depth will cause them to produce a deep root system which will not be injured as quickly by freezing or drought. After this plowing the fertilizer should be applied and worked with a disk harrow or cultivator.

Frequent cultivations should be given with the cultivator or disk harrow, running deep enough to form a good soil mulch and prevent subsequent baking or crusting of the surface and prevent loss of soil moisture by evaporation. Thorough culture kills all the weeds, which are a constant drain on the soil moisture and plant food and also assists in decomposing and liberating any plant food which may have been turned under.

## USEFUL AS HEDGE TRIMMER

Implement Easily Put Together by Using Several Blades Attached to a Wooden Handle.

Hedge cutting or trimming with a scissor or with hand snips is very slow and tedious work. As I had considerable hedge to take care of, says a writer in Popular Mechanics, I made a trimmer with several sets of blades.

A Hedge Trimmer.

similar to a regular trimmer. The blades were attached to a wooden handle and operated with a wooden lever as shown in the sketch. The operation is the same as when using the regular hedge trimmer.

## Learn to Graft.

Why not urge the boys to experiment in grafting different kinds of fruit trees? Dig up some small fruit trees, such as plum, cherry, apple or peach. Some of which can be raised by planting the seed. The plum and cherry trees can be found almost any time where the sprouts come from the old tree. Then get some limbs from a tree of the same kind and of a choice variety and bury them all in a box of dry dirt in the cellar. At any time during the winter or spring graft them and put them back in the dirt till time to plant out.

## Care of Fruit Trees.

Look well to the little fruit trees set out this spring. See that they do not suffer from lack of water. When trees need water pull the soil away from around the roots, give each tree a rainfall, and, after it soaks in, replace the earth.

## RACE PROGRAM IS VERY STRONG

This Department of State Fair Under L. B. Shropshire Promises Big Interest.

## THE SIX BIG STAKE EVENTS

Six Purse Events, Six Running Races, Cisemen's Cup Race and Lady's Cup Race Among Star Features of Program.

From a racing standpoint, patrons of the Kentucky State Fair, the week of September 9-14, will be well provided for, as the program, which has been arranged by L. B. Shropshire, assistant secretary of the fair, is one of the best seen in Kentucky in years. He has arranged for six stake events for trotters and pacers, valued at \$600 each, and, in addition, he has provided for six running races, one for each day of the fair, and a Gentlemen's Cup race and a Gentlemen's Riding race, the last-named two to be decided the closing day of the fair. Among the stake races will be one for two-year-old trotters, one for three-year-old trotters, one each for 2:13 trotters, 2:25 trotters, 2:13 pacers and 2:25 pacers. The purse events will consist of one each for free-for-all trotters, 2:18 trotters, 2:15 trotters, 2:20 trotters, 2:12 pacers, 2:17 pacers and one for free-for-all pacers.

During the past two years the racing feature of the fair has proved one of the most interesting of any attraction provided by the management, and because of that fact it became apparent to Secretary J. L. Dent that better facilities would have to be provided for caring for the patrons of that particular feature. With this idea in view, the very first contract entered into by Commissioner Newman and Secretary Dent was with contractors for the enlargement of the grand stand, and when the gates are thrown open the morning of September 9 just twice as many people will be cared for in the race track section of the grounds as formerly. The new addition to the grand stand will be of re-enforced concrete, similar in every respect to the original part of the big stand, making it one of the largest as well as one of the most substantial grand stands in the country. Here can gather thousands of Kentuckians to renew old acquaintances as well as to witness the sport that is dearest to the heart of every native born son and daughter of the old Commonwealth. Unlike many of the race tracks of the country where trotting and running races are operated simply for the benefit of the track owners, the sport furnished at the State Fair can readily be designated as that of the "King of Sports" as the management of the fair has no idea of reaping any reward except that which comes from a good word passed around by its patrons. Therefore all races are decided strictly on their merits and in each instance the best horse wins. That some of the best horses in training on the tracks of Kentucky and other states will participate in the trotting and pacing events on the program this year is demonstrated by the fact that already owners have applied for stable room for the week and have made numerous entries to the stake events.

Under the arrangements provided by Assistant Secretary Shropshire one stake event and one purse race will be decided each afternoon during the week, in addition to which will be one running race each day. As all events for trotters and pacers, with the exception of the two-year-old events, will be three in five heat affairs it is needless to say that each afternoon will be crowded full of good sport for the fair patrons.

## NEW JUDGING PAVILION

At the Kentucky State Fair, Louisville, September 9 to 14, Inclusive.

A great improvement over former years, in the method of handling exhibits at the Kentucky State Fair, is the erection of a new pavilion for the judging of live stock. In this building all swine, sheep and goats will be judged. It will also be used for the Student's and Farm Boy's Judging Contest.

One side of the building will be fitted for swine and sheep judging arena, and the other for the Student Judging. In this way the public will have an opportunity of seeing and comparing exhibits in these departments with the same degree of pleasure and satisfaction as those who witness the contest for honors in the horse, mule, jack and cattle rings in the magnificent Coliseum or main building.

The new building will be well lighted, fully protected from sun or inclement weather, and will have seating capacity for all interested spectators. In short, it will be a miniature State Fair within itself.

### SAVING TREES BY GRAFTING

Injured Parts Are Bridged by Means of Scions of Last Year's Growth  
—Plan Outlined.

Orchard trees which have been girdled may often be saved by what is called bridge grafting. This consists in bridging the injured parts by means of scions of the last season's growth, thus connecting the part below the wound with that above. First trim the bark around the injured parts. Then sharpen the ends of the scions to a wedge shape and fit tightly into the layer of new wood just beneath the bark, called the cambium layer. Cover the union at the end of the scions with grafting wax, completely to exclude the air. Also wrap the wound with cloth to protect it from drying out, likewise cover the wax with old muslin to keep it from being melted by the sun. If the lower edge of the wound is near enough to the ground to make it practicable to do so, it is better to cover it three or four inches deep with fresh earth.

Where the trees are very young and the girdling is severe, cutting the trunk off below the wound is probably the best treatment. The exposed part of the stub should at once be coated with grafting wax. Select the best sprout that starts and support it by tying it to a firm stake until it is stocky enough to withstand strong winds without danger of being broken off. When the sprout is well started dress the stump so that it may heal over readily. Cut the stub slanting at the base of the sprout so that it will shed water. Then cover the wound with paint made of pure white lead and raw linseed oil, to protect it from water and from disease germs. Do not spread the paint beyond the cut surface. This method should produce a tree of bearing age sooner than one could be grown from a replanted nursery tree.

To make grafting wax, melt together four parts, by weight, of resin, two parts of beeswax, and one part of beef tallow or raw linseed oil. Apply while

moderately hot with a brush or dauber. A supply of the wax may be kept on hand by taking the mixture when hot and pouring it into water. When it is sufficiently cool, work with the hands until the mass assumes a buff color. Make into balls and wrap with waxed paper to prevent the balls from sticking together.

### HOW TO PLANT STRAWBERRY

Best to Have Plants in Bucket Containing Water to Keep Roots in a Moist Condition.

One of the best methods of planting strawberries is to thrust a spade straight into the ground at the proper place to a depth of five or six inches, writes R. S. Sando in Outing, and then lean it over to one side, forcing the soil out of the way and leaving a wedge shaped hole, one wall of which is straight up and down. The roots of the plant should be spread out in fan shape against this wall and the spade, then set in the ground about six inches farther forward, and by a backward movement of the handle firmly press the dirt against the roots of the plant. To lend additional firmness to the soil, step with one foot on either side of the plant.

The last hole made by the spade should have some soil raked into it before leaving. When setting the plants it is best to have them in a bucket containing a little water in order that the roots may be kept moist until they are planted; but it is not necessary or advisable to water plants immediately after setting them.

### HORTICULTURAL NOTES

Keep the weeds out of the orchard. Fire blight attacks the pear, quince and apple.

Thinning fruit usually pays, grading fruit always does.

Put on an old mitten and get after the tent caterpillars.

Raspberries should be picked when they have turned red.

There is not a home that can afford to be without blackberries.

In growing dewberries on a large scale one of the serious problems is that of securing pickers.

As a crop for the young orchard beans come as near being the ideal as anything that can be grown.

To watch the trees and vines grow that one has planted, to provide bowers as well as fruit, is a pleasing ambition.

Get the blackberries out of the sun as soon as they are picked, or they are likely to turn red in spots and be less salable.

Leave plenty of mulch between the strawberry rows when uncovering. It helps to retain moisture, and keeps berries cleaner.

Dig out and burn blackberry or blackcap plants that are infested with red rust. There's no other way to fight this disease.

FLANDERS "20" Automobiles EMF Two Models

You Want the Best—Not the Cheapest

Studebaker  
FLANDERS "20" Roadster, \$750

Don't be alarmed if somebody tells you you can buy an automobile for less money than the \$750 Studebaker-Flanders "20." You can, but you better not. The Flanders "20" corresponds point by point with the best and highest priced cars sold. Cheaper cars at every vital point are built on ideas long ago discarded for good cars. Don't take our word for it. Make comparisons and see.

The Studebaker-Flanders "20" is a marvel—a high grade modern car at a low price. If you pay less you buy much less. And the cheaper car today will cost you far more in the long run. The competing car isn't sold which the Studebaker Corporation, the greatest automobile manufacturers in the world, couldn't reproduce for less money; but we won't build a cheap car, because the name "Studebaker" means the best for your money.

If you are content with a car that runs today and dies tomorrow, don't buy the \$750 Flanders "20." It will wear for years. Remember this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car under \$1100 and give you double satisfaction, confidence and comfort into the bargain.

**MILLERSBURG ITEMS.**

One of the prettiest home morning weddings witnessed in this community was that of Miss Mary Ida Fisher, of Headquarters, to Prof. Thomas Smith, of Bristol, Tenn. The wedding took place at 7 o'clock Tuesday morning, at the home of the bride. The parlor where the ceremony was performed was beautifully decorated in nasturtiums, banked with evergreens and potted plants.

At the appointed time, under the beautiful strains of the bridal chorus from Lohengrin, rendered by Miss Mary Frances Veach, of Carlisle, cousin of the bride. The wedding party then entered in the following order: Master Otto Gaffin and Little Miss Katherine Taylor, both of Cynthia, ribbon bearers, Master Griffin being a nephew of the bride. Little Miss Frances Elizabeth Veach, cousin of the bride, Carlisle, ring bearer, followed by Miss Ethel Veach Fisher, sister of the bride, gowned in white marquise, over white messaline, carrying pink roses, the bridal couple entering last, the bride handsomely gowned in white marquise, over satin, with white roses.

The group was met by Rev. Elder, pastor of the Carlisle Christian Church who in the beautiful and appropriate wedding ceremony, pronounced them man and wife. Soft music was rendered during the services, at the close of which Mendelssohn's wedding march was played. After congratulations, Mrs. Smith donned her traveling suit of tailor made "whipcord," with hat and shoes to match. Prof. and Mrs. Smith then took an automobile to Cynthia, where they took the nothbound train for Cincinnati, from thence to visit many points of interest in the East.

The bride is the accomplished daughter of Dr. and Mrs. Fisher. She is a beautiful and accomplished young lady with superior education and has many friends throughout this and many other States. Dr. Fisher is a physician and a prominent Mason, being one of the Masonic lecturers of Kentucky. Prof. Smith occupies the chair of Science at Kings College, Bristol, Tenn., and is prominent in educational circles. The couple were the recipients of many useful and handsome wedding gifts, and friends everywhere are extending congratulations.

Mr. Raymond Taylor is ill at his home here.

Mr. and Mrs. G. F. Jones are enjoying a two weeks' outing in Michigan.

Mr. J. F. Austin, of St. Louis, Mo., is the guest of Mrs. Joel W. Mock.

**World's Debt to Writers.**

It was a French news writer that wrote: "Suffer yourselves to be hanged if need be, but publish your opinions;" but in this country writers in early times faced imprisonment and the pillory again and again in order to make their views public, and whatever these may have been, it must be conceded that they deserve credit for courage, at least, in having laid the foundation of that freedom which the press of this country enjoys.—London Globe.

**Paris Defeats Lawmakers 2 to 1.**

In a close game at White Park yesterday afternoon Paris won from the Lawmakers by a score of 2 to 1, sending to defeat again the big league aspirant, Cramer. The contest was thoroughly interesting throughout and an error in the second inning followed by Lock stealing home, cost the visitors the game.

Monroe was on the rubber for Paris and after it became apparent in the fourth session that the league leaders were getting to his slants Applegate was sent to the knob and for the remainder of the game held his opponents with two hits.

The Bourbonites put up a splendid exhibition and the three errors chalked up against them were not costly only in one instance. Cramer held the locals to five hits, while the same number went against Monroe in the four rounds he was on the slab. The Paris team will go to Frankfort today and returning tomorrow, will again attempt to trim the league leaders. A double bill will be the feature Sunday with the Pioneers.

TUESDAY.

Paris broke even with the Rivermen in the double header in Maysville Tuesday afternoon, winning the first, a ten-inning contest by a score of 4 to 2, and losing the second 3 to 0. Hauser was on the mound for Paris in the opening event while Applegate pitched in the second. Vance who has heretofore been a puzzle to the locals was hit hard and frequently, and the Bourbonites outdid their opponents in the second game, but Beer's effectiveness kept them from scoring. The Paris team played through both games without an error.

WEDNESDAY.

Paris yielded both games of the double header to Maysville Wednesday afternoon. The first game stood 4 to 1, while the second was 8 to 2. Dunlap was on the mound for Paris in the first game and was hit at the time when safeties counted. Monroe went for the first two innings in the second game when he was yanked and Lock finished the contest. The Rivermen were never in danger of defeat in either of the contests.

**Hauser May Go To Big League.**

Jimmy Hauser, the star twirler of the Bonbonite aggregation has attracted the attention of one of the big Iague clubs by his excellent work during the present season and the result is that a scout will be here in a few days to look the promising young star over.

During the past month Hauser has been in rare form in his performance on the mound and in the last seven games he has pitched he has come out the victor. During the season Hauser has pitched in 32 games winning eighteen and losing eleven while in the remaining three he was sent in after the game was lost.

It is also said the scout who will visit Paris will look over first baseman Molkenkamp who has created quite a sensation and won for himself the credit of being the best initial sacker in the league. While it cannot be said definitely which of the National League clubs has been watching the Paris Players but it is believed to be St. Louis.

As the drafting season opens on August 15 it is probable if Hauser's work will warrant his being taken over by the big league club he will be purchased before that time.

A vast amount of ill health is due to impaired indigestion. When the stomach fails to perform its functions properly the whole system becomes deranged. **Beauty of the Drama.**

I think I love and reverence all arts equally, only putting my own just above the others; because in it I recognize the union and culmination of my own. To me it seems as if when God conceived the world, that was poetry; he formed it, and that was Scripture; he colored it, and that was painting; he peopled it with living beings, and that was the grand, divine, eternal drama.—Charlotte Cushman.

The problem of being well born has appealed to philosophers and statesmen in all times. The Jews guarded the birthright in ways that are largely responsible for the virile strength of the race.
